Dog Poop Sightings Citizen Science Datasheet - Pilot Program

Your Name: _____

Maui residents: please help us test this out! Email a photo of your completed datasheet(s) to WestMauiKumuwai@gmail.com. We'd love to hear your feedback about the datasheet and your experience with data collection along with any ideas you have to make this a useful environmental education/citizen science activity

Date	Start time for walk	End time for walk	How many dog poop piles did you see? Use hashmarks to count in groups of 5. If you saw any filled poop bags left behind, circle those hashmarks. At the end of your walk, count up each type and write the totals for each	Description of where you walked your dog (streets, park, etc.)	How much distance (in miles) did you cover?	Did you see any storm drains during your walk? (Y/N)	Did you see any trash cans during your walk? (Y/N)	Did you see any poop bag dispensers during your walk? (Y/N)	Did you see any waterways while you were walking (streams, gulches, culverts, concrete channels, etc.) If so, write a brief description	Other Observations (for instance, in what type of natural habitat did you walk? Did you see any cats outside, and how many?)
